

KaliThea Hotels Sustainability Report:

Introduction

KaliThea Hotels operate on the basis of the Rhodian family values, creating value for the remarkable people working together, the guests, the environment, the local community and the economy.

True to this philosophy is the need to preserve our ideals as well as environmental treasures and to inherit them to next generations.

My own Rhodian family values have also been to voluntarily contribute to a sustainable social growth, creating bonds with local community and preserving ideals like transparency and voluntary reporting.

All actions and policies that have contributed to our sustainable growth so far are available in this Sustainability Report through a review of globally accepted standards.

We keep on striving for the best, despite any difficulties, all together, for the shake of our generations to come!

With due respect to a better future for all

Philippos Stamatiadis

Chairman and Managing Director of KaliThea Hotels

Creating value for the environment

Basic Axes for a Sustainability Development

Kalithea Horizon offers supreme quality services with respect to sustainability. We are constantly reducing the use of electricity, diesel, gas, and water. We strive to minimize the waste and cooperate with leading companies in recycling (glass, paper, plastic and all metal) and use eco-friendly chemicals; without compromising the quality of services we offer and respecting all health and safety issues.

Results for summer season 2020

Our plan was to reduce the impact on the environment and at the same time follow our sustainability plan while safely operating into the Corona Virus era.

Overall Energy Consumption

Kalithea Horizon offers high quality services and according to our sustainability plan we invested in using a much more eco-friendly powering business plan by installing modern solar panels for hot water, replacing mini fridges and A/C units to most hotel rooms and restaurant buffets leading to a reduce of total electric power consumption by 25% from 2019 to 2020. Overall energy consumption per guest night in 2018 was 18.19 kWh, in 2019 was 18.59 kWh and 2020 consumption was reduced to 12,26 kWh.

Water consumption

We also managed to accomplish a significant reduce in water use. Water consumption for 2017 was 0.51 m³ per guest night and we only reduced to 0.49 m³ for 2018. In 2019 we scored 0.48 m³ per guest night while in 2020 we achieved an impressive reduction of 20% to 0.38 m³ per guest night.

Recycling

During summer season 2020 Kalithea Horizon did not keep complete records for gathered and collected waste for recycling as the vast majority was collected into blue bins municipally serviced. We introduced a new policy and training program which will be enriched for 2021 in order to manage, gather and ship waste to our certified partners for recycling. We managed to recycle 700 kg of used cooking oil, 700 kg of paper, 4368 kg of plastic, 60 kg metal and 125.850 kg of glass during summer season 2016.

OUR MISSION

The overriding aim of KaliThea Horizon is providing value for money services to its guests, always respecting the environment and associates.

Minimizing environmental impact is a major concern of enterprise so designed and applied every year step-by-step leading in that direction.

The cooperation of the hotel with tour operators, suppliers and the local community determines the right and upward course of business so take care to align our policies and priorities with those of our partners.

We care every year for actions relating:

- The reduction of waste
- The reduction of plastic use
- Prompt and efficient recycling program
- The reduction of chemical use
- The environmental control of the supply chain
- Ensuring staff and customer
- The use and promotion of local and Greek products
- The continuous training and education of the personnel on issues

Concerning:

- } The environment
- } The human rights
- } The children protection
- } Water and energy savings
- } The waste management
- } Health and Safety
- } And a range of other issues relevant to the subject of engaging.

This is the first official sustainability report of KaliThea Horizon aiming to provide accessible information to the company, its' operation, its' hosting services and all those activities which are inherent in the environmental, economic and social nature of the business.

This report refers to the period **from 01/01/2019 to 30/10/2020** and constitutes the business commitment to external and internal partners. The sustainability report will be submitted annually. It focuses on a number of business sectors and displays comprehensively and briefly:

- The company's profile
- **The market needs**
- **The market share of enterprise**
- **The sustainability policies**

- **The contribution to the environment and the society** and a number of other issues for achieving sustainable tourism and sustainable development.

Market Needs and Market Share

Kalithea Horizon offers value and benefits to our clients, over and above the standard of our facilities and affordable rates.

We provide our guest with a luxurious, relaxed environment within which to conduct their business. Our guests need to know that they can develop a relationship with the hotel that will ensure efficiency, value for their money and reliability in supplying them with the support they need, when they need it.

Macro-environment

The external factors which affect the business constitute the macro-environment and refer to the political, social, economic, epidemiological and technological environment of the business.

♣ **Political:** The political environment includes the political stability, the political system and the laws. All the political scene affects the operation of the business while tensions with neighboring countries have a negative impact.

♣ **Economic:** As with most industries, the hospitality and tourism sector is experiencing numerous challenges as a result of the global economic crisis. The industry is feeling the impact of a shrinking capital market and decreased spending by both corporate and individual consumers. In addition, tourism can be the driving force behind Greece's economic recovery.

♣ **Social:** the trend towards cost effective travel leads hotel guests to seek more value for money, which is where our added value differentiation strategy comes into play.

♣ **Epidemiological:** COVID-19 pandemy affected tourism globally in a way that simply could not be predicted. Travel restrictions and bans changed the way travelers schedule their holidays and spend their budgets.

♣ **Technological:** Technology plays an important role in the hospitality and tourism industry. Both customers and businesses can benefit from advances in communication, reservations and guest services systems.

Technology allows continuous communication and streamlines the guest experience, from reservation to check out.

SWOT Analysis

The following analysis is a strategic designed tool which highlights the internal strengths and weaknesses of our organization, the opportunities and threats facing the company in our external environment.

KaliThea Horizon Resort is dedicated to providing its guests with the highest quality of service and standards in order to positively engage with all our partners, to understand their sustainability targets and to align our priorities (customers, suppliers, local community). As a response we aim to minimize environment impacts, optimize business processes and maximize safety, quality and performance.

-

Heat recovery systems have been installed which produce hot tap water from the air conditioning chillers, covering the resort's needs for hot water during the months in which the air conditioning systems operate. Solar panels are installed heating water from the sun at no cost.

- We investigate and evaluate alternatives for saving energy
- Use of low energy technology (led lamps)
- Old equipment replacement plan
- Staff training in the proper use of electricity issues
- Implement policy wash on demand
- Change of linen when demanded
- Use of energy management system in order to have control of

- heating systems - air conditioning and lighting in guest rooms
- Check for electrical appliances in empty rooms.

WATER

All room taps and showers have been equipped with aerators centrally which reduce water flow while maintaining water pressure and are of the single mixer type. Toilet flushers are adjusted to 6lt of water per flush or less and double flushing system is installed. Showers in kitchens or outdoors have a system to stop the flow of water automatically after a certain time or if not occupied, and the gardens are normally irrigated after sunset or early morning, to avoid water evaporation from the hot summer sun. Finally, periodic inspections checking for water leakages are documented and forwarded to maintenance staff for corrective actions.

Installation flow control devices for the rational use of water

- Staff training on proper water management
- Growing specific species of plants which are based on local weather changes
- Irrigation of green fields with the drip method
- Installation and existence of sanitary ware with authorized amounts of water consumption (toilets, showers, faucets with low water flow)
- Re-use policy of towels and bedding in the rooms
- Wash linen outsourced
- Proper inspection and maintenance of the pool
- Always check for leaks repaired

Adopting a towel reuse program in a 700-bed hotel could:

- **Reduce the amount of towels washed at 86.000kg per year**
- **Reduce by 7.5% the amount of detergent and other laundry chemicals**
- **Significantly reduce water and energy costs**

In addition, the towel reuse program will increase the life and reduce the maintenance requirements of the laundry equipment, will reduce the wear of the towel and the requirements for labor in the laundry section.

CHEMICALS

The use of disinfectants and chemicals is limited: where this unavoidable however due to COVID19 protocols, environmentally friendly products are sought out. All the chemicals are biodegradable and the quantity is measured through dosing devices. Chemical-free cleaning methods are also promoted.

- } Record the amount of chemicals collected
 - } Secure storage of these based on international and national standards
 - } Staff training on the correct use of chemicals
 - } Check the minimum incidence of those in health and environment
 - } Necessary equipment for users of these
 - } Existence of an incident record
 - } Existence and notification instructions for emergency situations
 - } A detailed service report and control of supplier
 - } Integration Hotel in program named envelopment system
- integrated approach enemies palm with plant safe removal of insults

WASTE

KaliThea Horizon Resort have introduced the sorting of waste into at least four categories. Recycling stations are placed strategically around the resort areas, even though in some locations the local authorities have been slow to respond. We routinely avoid buying small quantities or materials which are over-packaged or are even designed for one use; such products include shampoos, soaps, shower caps, and breakfast portions such as butter or marmalade. We introduced purchasing of bio-degradable bags replacing the plastic ones used in our Mini Markets.

We recognize that purchasing decisions can contribute significantly to environmental protection.

Reduction of packaging materials with greater market packaging products.

- } Waste management - recycling (paper, glass, plastic, toner, burnt oil, etc.)
- } Proper management of food quantity proportional to the number of customers
- } Use of electronic systems instead of paper for business purpose
- } Training of personnel for the proper management of waste and recycling
- } Implement a restaurant and cuisine F.I.F.O. method
- } Minimize disposable products
- } Use of soap dispensers in bathrooms
- } Reduce the use of plastic bags for single use
- } Informing visitors about environmental issues and recycling program that is applied to the hotel through a series of events

AWARENESS

In KaliThea Horizon Resort we try to raise awareness of environmental issues both internally and externally through a variety of educational and training initiatives. Our staff participates in environmental training programs which include methods of controlling the amount of detergents and disinfectants used, reducing electricity and water consumption separating waste into the appropriate receptacles where can you have in a hotel hazardous waste, and general environmental issues.

A key element In KaliThea Horizon Resort focus on quality and environment issues is our recognition of the importance of staff involvement. Proper training and information for staff have encouraged their involvement in environmental initiatives.

Environmental Policy

KaliThea Horizon Resort believes that continuing success in the hotel industry depends on:
